PERFORMANCE FOR YOUR TRIPS

Performance lets you go further.
Lets you stay a little longer.

With a Pilote, performance is not measured
by speed, but by what becomes possible.

When you control the road,
when technology ensures comfort over time,
then choices expand.

You'll never see the
weather the same way.

You'll never wait for the right season.
You'll never shorten your trip again.
You'll get more out of it.

Spring comes earlier.
Autumn stretches out.
Travel further without
even noticing it.

WHY CHOOSE **PILOTE?**

Made in France

Our motorhomes are designed and built in Western France. From structure to finish, every Pilote is born of our expert know-how.

65 years of expertise

Since 1962, every new Pilote model brings an opportunity to improve. Not with time, but thanks to the choices we make.

Tests and quality

Cold room, dynamic tests, waterproofing tests: before it reaches you, every new Pilote passes key quality control steps.

A wide range of choices

Three motorhome ranges, some 35 models, over fifty options and multiple customisation packs: there must be a Pilote for you.

Across Europe

The French market leader, present in many European countries, Pilote has a network of over 170 expert dealers who will support you wherever you are.

Internationally award winning

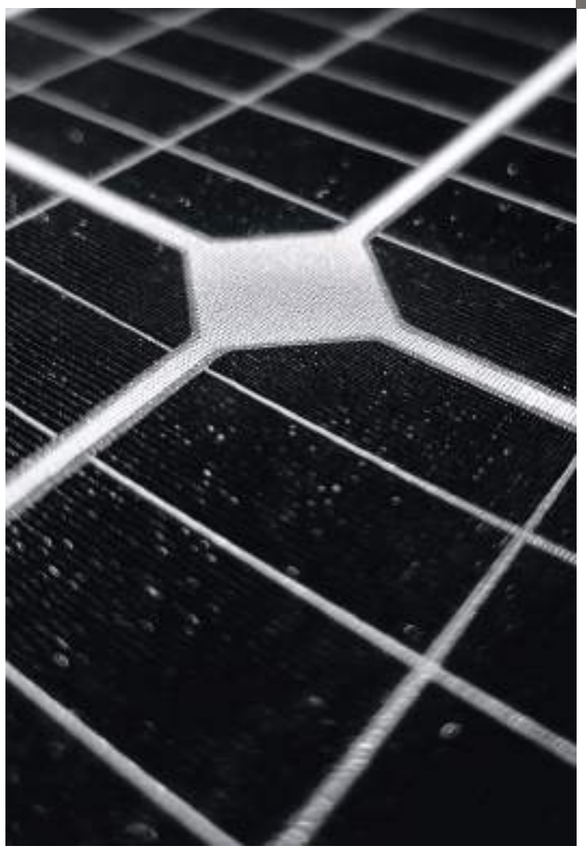
Every year, Pilote's innovation and quality are rewarded with multiple prestigious awards across Europe, confirming our place as a market leader.

WELCOME **ABOARD**

PEACE OF MIND

Safety is not an option

Your peace of mind is our priority. In line with GSR2 requirements, we now include the most recent advanced driver assistance systems (ADAS) on all of our models. This technological co-pilot discretely watches over you and your loved ones, guaranteeing maximum protection. Travel relaxed: safety is now an integral part of your freedom to roam.



COMFORT

Technology serving performance

Get a head start when travelling thanks to features selected for their effectiveness. The combination of lithium batteries of up to 300 Ah, charge boosters and latest generation solar panels guarantees maximum performance. This combination together with hybrid diesel/electric heating and a compression refrigerator allow the use of high performance appliances while keeping gas use to a minimum.

DARING

Innovation is our core priority

We don't just follow standards, we create them. From workflow optimisation to the ergonomics of every part, every year brings a new set of pragmatic innovations. Our design department works tirelessly to anticipate your needs and to turn technical constraints into opportunities so that we are constantly improving our vehicles.

AUTHENTICITY

Born of a heritage of woodworking expertise

For over 60 years now, we have cultivated our demanding approach through our historic expertise in woodworking and assembly. In our workshops, the accuracy of digital technologies meets noble craftsmanship to shape solid, bespoke, furniture. This alliance of tradition and cutting edge technology guarantees long lasting vehicles designed to serenely live out the years.

"The challenge is to combine modern geometric shapes with the warmth of new materials, offering a design that is functional, elegant and timeless all at once. "

— Lucie, designer with the design department

ELEGANCE

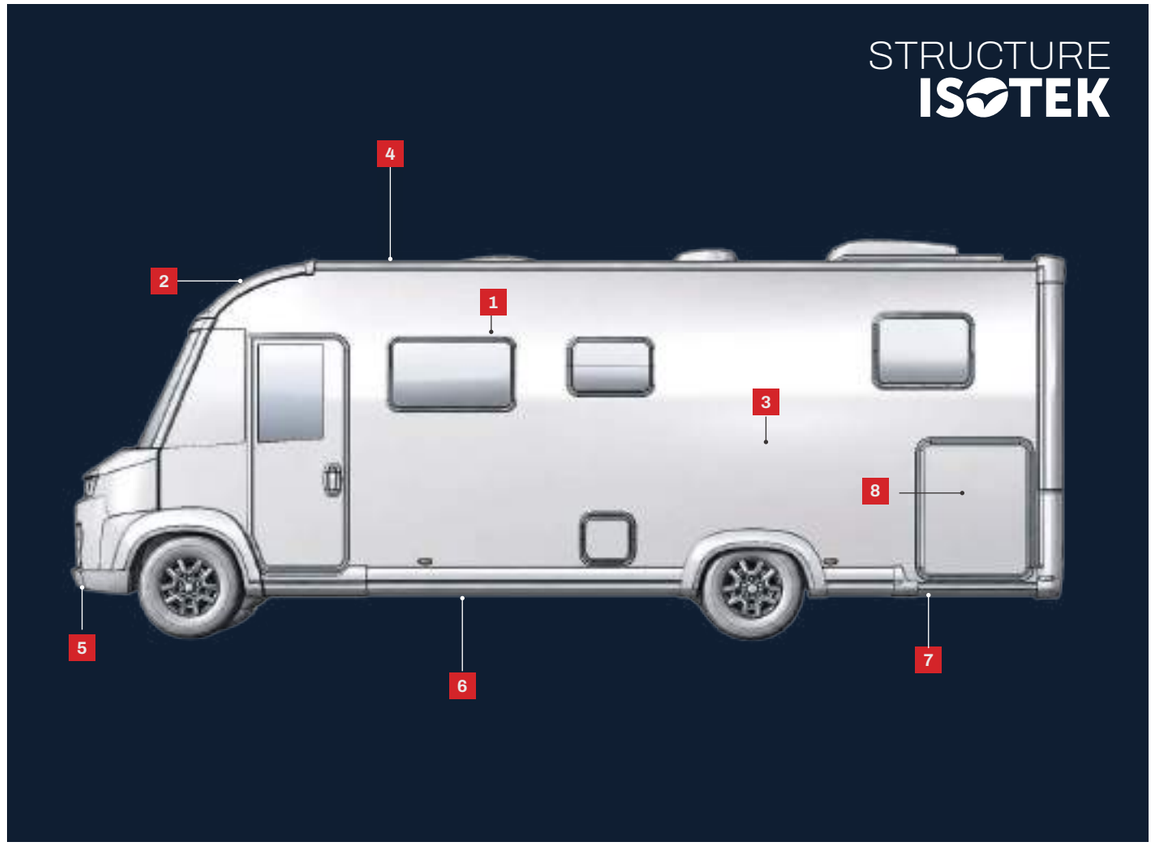
Demanding design and materials

The on-board "art de vivre" calls for fluidity and optimised volumes, intended to make your moves easier. We create bright, modern interiors with smooth lines where all of the materials are chosen for quality and durability. This attention to detail together with a quality finish matches the crisp exterior design. With a contemporary graphic signature and distinctive lines, every detail is designed to combine robustness and aesthetics, offering a living area that is as elegant as it is functional.

INSULATION

The efficiency of the Isotek structure

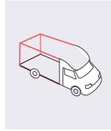
Pilote is continually perfecting the processes used to guarantee ever more robust vehicles. Our wheel arches and tanks benefit from high efficiency insulation combining light weight and rigidity. This innovative structure comprises rot-proof strips in bodywork. Stronger, they ensure a perfect link between sidewalls and floors while eliminating any thermal bridges. Together with the modern floor structure for low-profile and A-class modes, this design approach guarantees exemplary insulation and long life.



1 **Flush windows**

Their aluminium anti-intrusion frames with double-glazing strengthen heat insulation and safety while eliminating spurious noise.

2 **Aluminium profiles**



This solidly attaches the sides and top. The profiles prevent any distortion of the bodywork and make the motorhome robust and durable.

3 **Insulated walls**

The insulating core in the sidewalls and floors, reinforced by rot-proof strips and aluminium inserts guarantee perfect stability for structure and fittings alike.

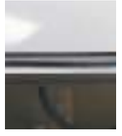
4 **Hail-resistant roof**

This polyester roof is impact-resistant. It is resistant to hail damage and other types of impact.

5 **Polyester classing under the chassis**

Keeps ground moisture out of the vehicle.

6 **Aluminium side skirts**



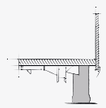
This attractive protective side skirt is easy to replace in the event of damage.

7 **A stronger extended chassis**

Thanks to its reinforced structure, the storage area can bear heavy loads and optimises your towing capacity of up to 2,000 kg (as standard for Fiat® chassis): standard GTM (Gross Train Mass) without any loss of registration seats.

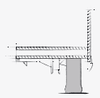
8 **Dual-seal hatches**

To ensure that the storage area is completely sealed and insulated, all hatches are fitted with compression locks and dual-seals.



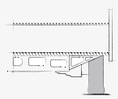
Thick floor in low-profile models

- With a total thickness of 50 mm, including 40 mm of insulation our low-profile range's floor delivers excellent thermal performance.
- It holds the water and gas systems to keep them frost-free.



Insulated double floor in A-class models

- This features a 13 cm cushion of heated air, further boosting its insulation performance.
- It also keeps the water, gas and electricity systems frost-free.
- Floor hatches provide additional storage space and access to the waste water.



A-class storage double floor on Al-Ko® chassis

- The Al-Ko® double floor features an internal height of 21 cm and is known for its high quality insulation.
- It keeps the waste water drainage valve and tanks frost-free.
- There are 6 interior and exterior access points to reach items stored in the double floor.

THREE PRODUCT RANGES, ONLY ONE DEMAND

Expertise for every horizon

For over 65 years, Pilote has cultivated the art of travelling thanks to historic mastery of every market segment. Today, this expertise finds its expression in three model ranges: the agility of our slimline low-profile models, the flexibility of our low-profile models and the excellence of our A-class models. Every model combines easy of use and quality finish. Choosing Pilote brings the peace of mind of a robust vehicle born of the perfect match between tradition and innovation.

KNOW-HOW 65 YEARS EXPERTISE

MADE IN FRANCE

TESTS & QUALITY

GALAXY

A-class

On a Fiat® CCS or Al-Ko® chassis, 7.07 to 7.94 metre length

Designed for adventurous travellers, A-class mode offer unique panoramic visibility and maximum interior space. Available on an Al-Ko® chassis for excellent road holding, these models combine improved thermal comfort and optimised storage space for complete comfort thanks to their double floor.

PACIFIC

Low-profile models

On a Fiat® chassis, 6.98 to 7.47 metre length

The benchmark for flexibility, low-profile models stand out for their aerodynamics, excellent road holding and managed fuel consumption. Its balanced shape makes it easy to drive while offering plenty of living space. Fully customisable, this fluid vehicle is suitable for every kind of route.

ATLAS

Slimline low-profile models

On a Ford® chassis, 6.30 to 7 metre length

Slimline low-profile models combine the living space of a conventional motorhome with the manoeuvrability of a smaller size. Its optimal width eases difficult passages and in-town manoeuvrability without sacrificing inside comfort. Mounted on a dynamic chassis, this is the ideal vehicle for adventurers seeking a compact, fast reacting and robust model.

GALAXY RANGE

OUR RANGE
A-CLASS MODELS

"THE" benchmark for motorhome experience, the Galaxy range brings an unrivalled panoramic view and living space. From agile models to large A-class models on an Al-Ko® chassis, a full range of layouts is available. This is the ideal choice for travellers that demand the luxury of a large interior without compromising driving pleasure.

A NEW DESIGN, **ELEGANCE IN MOTION**

"The real challenge was to integrate the most complex safety technologies into the cleanest lines so that design outshines technology."

— Julien, designer with the design department

DESIGN

The engineering behind the looks

Inspired by premium car design codes, the outside appearance and especially the new front face, redefines the identity of our A-class models. More modern and dynamic looking, they affirm robust design while retaining true elegance.

Our precision engineering is not just aesthetics: every line is drawn to smooth the link between front and sides, downplaying volumes for a harmonious silhouette. Our optimised architecture integrates the latest safety technologies (ADAS) and guarantees ideal engine cooling. On-board, you will always benefit from our initial promise, unrivalled cab space and an exceptional panoramic view of your most beautiful horizons.

GALAXY **G781FGJ**

An extra-large living area for more fun and comfort

- The face-to-face lounge area offers a generous living area with two very large side benches.
- The dropleaf table folds down to make it easier to reach the driving position and for easy movement within the area.
- Five people can comfortably sit around the table to eat or relax.
- The wide side windows and the panoramic windscreen bring exceptional natural light to the entire space.
- The high ceiling enhances the feeling of space in this large living area.

Technical information

Vehicle length	7.94 m
Overall width (wing mirrors open)	2.79 m
Lounge headroom	2 m
GTM (Gross Train Mass)	6,000 kg

Al-Ko® chassis and premium equipment for maximum comfort

Get the benefit of all of the advantages of the Al-Ko® chassis:

- Excellent road handling, superior driving comfort and greater stability thanks to independent suspension on all four wheels and the lowered chassis. The vehicle offers greater stability with a lower centre of gravity and a wider track.
- An insulated double floor that is 21 cm high, full-width and accessible from both the outside and the inside with multiple storage compartments.
- The tanks and waste water valve are located inside the double floor ensuring their insulation.

As standard, our A-class models on a Al-Ko® chassis include the best equipment: automatic transmission, 16" alloy rims, stowage bars and a hot/cold water shower head in the storage area, a duckboard and towel rack, etc.

A handy & large kitchen

- A large counter top for convenient cooking.
- A kitchen with high-efficiency appliances for cooking like a chef: two-burner high power gas hob and 158-litre compression refrigerator.
- Multiple storage areas for putting all of your utensils away: high cupboards, soft-close drawer units with (optional) non-slip mats, pot drawers, spice racks, etc.
- The room is well lit: the window lets natural light in during the day and come nightfall, the LED lights take over.

Sylvie and Francis, on a quest to explore Norwegian fjords

"Exploring the fjords is really a pleasure thanks to the stability of the chassis we chose, even on the most extreme winding roads. For us, this was the ideal balance: living an outdoor adventure every day without every giving up the comfort of our own home. "

A big bedroom, a comfortable bathroom and extra large storage space

- A separate bedroom with twin beds and a standard bed extension between them to create a king size bed. Optionally, make life simpler for yourself and opt for tailor made fitted sheets.
- A drop-down bed is also included as standard and even when lowered, it does not interfere with lounge use.
- A spacious bathroom with two skylights for more light and better ventilation. It is insulated by a double partition and has a separate toilet for improved comfort.
- A very large full-width, lowered, storage area offers an exceptional 3,299 litres of storage space. It is ideal for bringing your bikes or other large items, with no need to compromise.

Lounge headroom	2 m
GTM (Gross Train Mass)	6,000 kg

The perfect combination of performance and practical features

All of our A-class models come with ultra-high efficiency equipment, just like at home, for maximum comfort:

- Hybrid(1) diesel/electric heating for no-compromise endurance.
- An electric compression refrigerator(1) : guaranteed cooling even in the hottest weather.
- A 200 or 300 Ah lithium(2) battery: long service life and optimum endurance.
- A 2,000 W converter(2): perfect for using your coffee machine or hair dryer.
- 210 W solar panels(2): an effective, fast and environmentally friendly way to charge batteries.

(1) Standard. (2) Optional.

A nice and cosy living area

- A comfortable lounge that easily seats up to five people.
- Very comfortable L-shaped benches thanks to their high density foam.
- A large central table with sliding tray for fluid movement and easy adjustment at meal time.
- Plenty of light thanks to large side windows and indirect LED lighting for a cosy atmosphere.
- A great panoramic view from the cab: really pleasant for the driver and the passengers in the back (as the floor height is the same).

A well equipped, user-friendly kitchen

- A kitchen with high-performance appliances for cooking in the best conditions.
- With a two-burner hob: now the only standard appliance that uses gas on-board.
- A 150 litre compression refrigerator, just like home. It will continue to work optimally, even with high outdoor temperatures. It offers more storage capacity and better vehicle insulation than an absorption refrigerator, as it does not need an outside air vent.

Judith and Bruno, Adriatic coast explorers

"We've stopped looking at the clock: we can wake up facing a Slovenian lake and fall asleep with the lapping water of a Croatian creek. Our motorhome is our form of escape. Between our bright sunlight lounge and our cosy bedroom, we enjoy total comfort without every feeling cramped for space. "

Generous amounts of space, from bedroom to storage area

- A vast bedroom with twin beds. A bed extension between the twin beds to create a king size bed is included as standard feature.
- A large bathroom with a lovely high shower. A space separated by a dual partition system for greater privacy.
- A separate toilet with a skylight for light and ventilation.
- Multiple storage compartments throughout the inside of the vehicle.
- A very large full-width, lowered, storage area offers an exceptional 3,200 litres of storage space. It is ideal for bringing your bikes or other large items, with no need to compromise.

PACIFIC
RANGE

OUR RANGE
LOW-PROFILE MODELS

Our unmistakable Pacific range is suitable for all travellers thanks to one of the widest product ranges on the market. From compact to large family models, the range overs some ten layouts (twin or central beds, face-to-face lounge area) optimising every living area. Thanks to its agile design and many options, the Pacific range will adapt to suit your wishes and bring you a serene driving experience and bespoke comfort.

PACIFIC **P720U**

A friendly king size lounge

- A very large U-shaped lounge that can host up to six people: ideal for remote working or welcoming friends and family aboard.
- Wide high density foam bench seats that are big enough to comfortably relax it without needing to lower the bed.
- Very wide inside area for easy movement and a dropleaf central table to free up even more space.
- A truly bright space with a peerless view of the surrounding countryside, thanks to three big panoramic windows.
- Integrated LED mood lighting for a consistent and warm atmosphere throughout the entire living area as soon as night falls.

Technical information

Vehicle length	7.25 m
Overall width (wing mirrors open)	2.69 m

GTM (Gross Train Mass)	6,000 kg

Enhanced safety for relaxed travel

To guarantee your serenity at the wheel, the P720U, like every Pilote vehicle, integrates an intelligent technology suite, your true co-pilot during your travels. These active safety measures look after you in real-time to prevent hazards and simplify every trip:

- Lane Assist.
- Automatic Emergency Braking (AEB).
- Speed limit sign recognition.
- Driver fatigue and sleep detection.
- Rear parking assist.

To find out more, head to page 50.

A large functional kitchen

- A large counter top, extended by the cover over the sink for even more space and a two-burner high efficiency hob.
- Plenty of handy storage places are available, with the high cupboards, soft-close drawers, a pot drawer below and two spice racks.
- Opposite the kitchen, a 141-litre absorption refrigerator, ideal for storing fresh produce during your travels.
- A bright and really pleasant kitchen, thanks to the window right over the counter top.

Lucy, John, Léa and Tom: a family adventure in Ireland

"We are rediscovering Ireland with the same passion we had when we were in our twenties, but with added comfort. Our campervan is the ideal base: after a day on the coast, we enjoy a nice cup of tea in the warmth, just like at home. It's an adventure, with the bonus of well-being. "

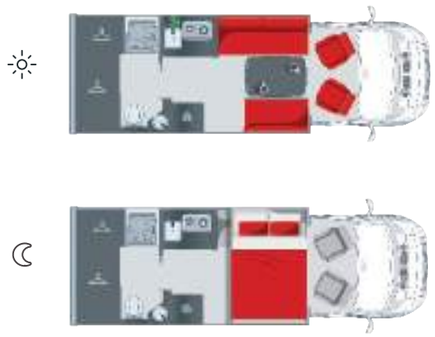
A comfortable sleeping area, a separate bathroom and a large closet

- A full-size powered drop-down bed (160 x 200 cm) in the lounge.
- A very large additional sleeping area in the lounge (another 160 x 200 cm size bed) is optional to complete the sleeping space, for up to four people.
- A large bathroom cleverly located between lounge and cab, with a separate shower.
- And once again, to make it handier, you have the benefit of a large wardrobe right opposite the bathroom, with a number of shelves, hangers and a large mirror.
- Right under the wardrobe, you can gain access from inside into the side storage area, located to the right of the living area door. With 1,330-litres of space, this area lets you bring your outdoor table and chairs with you.

PACIFIC **P690D** NEW

A very large lounge in a compact vehicle

- A vast lounge area able to host up to seven people at the same time.
- A roomy interior with a dropleaf table to make it easier to move around.
- Two face-to-face benches that can quickly be transformed into road seats with high-density foam for lasting comfort.
- Optimised storage space to easily organise all of your belongings.
- A very bright interior thanks to the big windows, the skydome and the full indirect LED lighting for a relaxed atmosphere.
- A wide living area door to make moving in or out even smoother.



Technical information

Vehicle length	7.02 m
Overall width (wing mirrors open)	2.69 m
Lounge headroom	1.92 m
GTM (Gross Train Mass)	6,000 kg

A refreshed layout for a more handy and comfortable vehicle

This year sees the reinvention of the P690D, to become "the" motorhome: a 7 metre compact and agile low-profile compact where every square metre is rethought. Its optimised interior layout combines comfort and practical aspects, offering a surprising amount of living space and ever more generous storage from cab to storage area.

- The perfect combination of the agility of a manoeuvrable low-profile and the comfort of large living spaces.
- Extra large living areas in a 7 metre long compact vehicle.

A large fully equipped kitchen

- A roomy, functional and optimised kitchen with a large counter top, extended by a sink with a cover, a two burner high efficiency gas hob and a 141 litre refrigerator.
- Plenty of storage areas are provided to put away your dishes and utensils: soft-close drawers and easily accessible high cupboards, drawers with non-slip mats (optional) to secure your dishes and ensure quiet driving.
- A bright room thanks to the window over the counter top and multiple light sources.

Nathalie and Peter, escaping to Brittany

"We are free to make the most of Brittany without any fixed schedule, Our motorhome, a true home on wheels, can make its way anywhere, from the cliffs of Finistère to quaint little ports. It's our ideal refuge for falling asleep looking out at the sea. "

Easy to use space designed for your comfort

- A large 160 x 200 cm drop-down bed in the lounge and easy access thanks to it being electrically lowered to 80 cm off the floor.
- A roomy, bright bathroom that is well ventilated thanks to a skylight. It includes a shower and toilet for ease of use.
- Multiple interior storage solutions are completed by a large wardrobe next to the bathroom, with hanging space and built-in drawers for optimum organisation.
- The vast 2,984 litre full width storage area is now even deeper than before. Accessible from both inside and outside, it comes with a 1.75 metre high hatch that is even wider than before, for even easier access.

ATLAS RANGE

OUR RANGE SLIMLINE LOW-PROFILE MODELS

This series of vehicles on a Ford® chassis, with their adventure-seeking design, are designed for travellers out to discover places off the beaten track. The Atlas range stands out thanks to its strong character and compact size, offering improved agility on all kinds of roads. This is the ideal proposition for anyone looking for a flexible travel companion, able to combine the comfort of state of the art fixtures with a true quest for escape and freedom.

GTM (Gross Train Mass)	6,000 kg

A Ford® chassis for better manoeuvrability and flexibility

From a family of vehicles we have been using since the 1980's, this model offers exceptional flexibility and incomparable driving pleasure:

- A 165 hp engine with 8-speed automatic transmission. The ideal compromise offering strong take-up and flexibility across all engine speeds.
- Advanced driving aids and reinforced traction are there for perfect directional stability under all circumstances.
- FordPass connectivity: remotely locate, start or lock your vehicle and keep an eye on its overall health.
- Ford® Camper Assist: one whole year of complete roadside assistance (recovery, replacement vehicle or 4* hotel) free of charge in case of breakdown.

A compact and generous kitchen

- A clever and handy kitchen designed to be functional while optimising space.
- Essential, quality appliances are included: a 142 litre absorption refrigerator, a two gas burner hob and a sink cover to extend your working space.
- Intelligent storage solutions, like soft-close drawers, a saucepan drawer, easily accessible high cupboards and spice racks, so that you can keep your utensils and ingredients well organised.
- Inside space is bathed in light thanks to a large window and attractive interior lighting.

Becca and Mark, on an enchanted break in Andalousia

"We are simply travelling through Andalousia with our two kids. Our compact motorhome is truly a home on wheels: it creeps through anywhere and inside, we can all find a haven and our own space. This independence, without ever feeling cramped is what makes us happy."

A separate bedroom, a clever bathroom and a large storage area

- Separated by a curtain, the bedroom has two twin beds 80 x 200 cm and 80 x 192 cm. As standard, there is space for an additional transverse king size bed!
- An electric drop-down bed for two and additional berth space using the lounge benches for another person may be added as options.
- A well designed, modular and 2-in-1 bathroom is provided thanks to a removable partition allowing the toilet/washbasin space to convert into a shower.
- A fine transverse and lowered 2,830 litre storage area with a height of 1.20 metres lets you take high and outsize objects like bikes with you.

ATLAS **A630G**

Technical information

Vehicle length	6.30 m
Overall width (wing mirrors open)	2.75 m
Lounge headroom	1.91 m
GTM (Gross Train Mass)	6,000 kg

A compact vehicle that looks the part, ready for any adventure

As handy to drive as a van, the A630G also comes with its adventurous nature, ideal for heading off the beaten track. Its robust and modern design and its all-terrain identity are reinforced exclusive exterior finish touches:

- An elegant grey cab that matches a black Ford® design grille, for a character-full front face.
- Protective bumper strips on the front doors along with a grey lower front bumper, to reinforce the vehicle's robust appearance.
- 16" black alloy rims and special stickers on the doors to underline its "Trail" identity.

A well designed, bright lounge

- A welcoming living space for up to five people, designed to offer a friendly interior atmosphere when stopped.
- Comfortable facing benches in high-density foam that quickly and easily convert to driving seats.
- A dropleaf central table that makes it easier to move around and reach the driving position.
- High storage cupboards installed over the lounge so that you can organise your belongings without cluttering the space available.
- Constant natural light from the side windows and the opening skydome that overlooks the cab.

An optimised, well-equipped kitchen

- A cleverly designed kitchen that brings you everything you need in a well thought out space.
- Quality appliances: a 142 litre absorption refrigerator (or an optional compression refrigerator), two gas burner hob, sink cover to extend your working space.
- Plenty of storage is also provided to hold your utensils and supplies: drawers and pot drawer, high cupboards, a spice rack, etc.
- A bright area day and night, thanks to a skydome and LED lights that save energy.

Julia and Simon on an in-depth exploration of the alpine foothills

"Finally we get to see Provence and make the most of our absolute freedom. Thanks to our slimline low-profile model, we can easily travel anywhere, from lavender-lined roads to village squares. We love to hike until nightfall, then return to the comfort on-board. What a wonderful life: right in nature's midst, in our own little comfortable nest. "

Ingenious spaces for greater comfort

- A dedicated sleeping area with a full-width 140 x 200 cm garage bed. A bright area (thanks to the windows and reading lights), isolated from the rest of the vehicle by a dividing curtain.
- A 90 x 193 cm electric drop-down bed, a rare amenity in a vehicle this compact and an extra bunk are available optionally in the lounge to host two more people.
- A large, separate, bathroom with natural light and ventilation thanks to a skylight. Yet it remains clever and convertible thanks to a removable partition that lets you transform the toilet/washbasin space into a shower.
- A 1,942 litre storage area accessible from both sides, ideal for storing your outdoor furniture and/or bikes.

STANDARD FITTINGS, PACKS AND **OPTIONS**

The main standard fittings for A-class models

Chassis and exterior aspects

- Fiat® CCS chassis: 140 hp engine with manual transmission.
- ABS, ASR, ESP, Traction+ with hill descent control and ADAS (new).

- Grey cab and black Ford® design grille.
- Black 16" alloy rims and bumper strips on the front doors.
- "Trail" stickers on the doors and a grey lower front bumper.

Improved safety: GSR2 comes aboard

More protection, greater peace of mind: our vehicles are GSR2 compliant. Take advantage of the most advanced driver assistance systems as standard, ones designed to make your safety self-evident during your forthcoming trips.

Lane-Keeping Assist (LKA)

Constant vigilance: if you cross a line without indicating, the system alerts you and gently corrects your path to ensure stable and safe driving.

Automatic Emergency Braking (AEB)

Assisted vigilance: the system anticipates collision hazards. If it senses a pedestrian or a stopped vehicle, it warns you and triggers automatic braking to prevent or reduce the impact.

Speed limit sign recognition

Roadsign recognition: the system identifies roadsigns for you. The applicable speed limit is displayed in real time on your dashboard with a visible alert to inform you of any violation.

Driver fatigue and sleep detection

Vigilance alert: your vehicle keeps an eye on your fatigue. Should you show any signs of boredom or imprecise driving, a signal invites you to stop for a rest to guarantee a relaxed trip.

Rear parking assist

Rear video watch: thanks to the built-in reversing camera, instantly see the area behind your vehicle on the onboard screen.

Your safety is our new standard

Live every mile to the full. In collaboration with Ford® and Fiat®, we have integrated the most innovative safety technologies to transform your experience on the road. These intelligent systems discretely follow you, guaranteeing maximum protection without compromising your feel at the wheel. With Pilote, explore the world safe in the knowledge that the best in technology is watching over your freedom.

OPTIONS MATCHING **YOUR NEEDS**

A-CLASS AND LOW-PROFILE MODELS

POWER

Two engine types for optimum driving comfort:

140 hp
Balance
The best fuel economy/performance ratio. Ideal for economic and controlled driving. Standard on all of our vehicles (except G781).

160 hp
Flexibility
The perfect compromise. More torque and response for greater driving comfort in all circumstances. Standard on G781.

180 hp
Performance
Absolute power to easily absorb any terrain. Maximum smoothness, always coupled with an automatic transmission.

TRANSMISSION

Manual
Standard on all A-class and low-profile models (except Al-Ko® chassis: automatic transmission). Ideal for traditional driving.

Automatic
Fiat® 8-speed transmission for enhanced driving comfort. Available with all engines and must be combined with 16" alloy rims.

VEHICLE WEIGHT

Standard balance - Regular driver's license

3.5 T
Unrestricted freedom
Standard (except G781). The ideal solution for travelling with a regular driver's license.

The heavy vehicle experience - Truck license

3.65 T
Agile optimisation
Optionally available on Fiat® chassis, 140 to 180 hp, with a manual or automatic transmission.

4.25 T
Superior comfort
Optionally available on Fiat® chassis, 160 or 180 hp, with 16" rims and automatic transmission.

4.4 and 4.5 T[1]
Heavyweight performance
Standard on G781, optional on some models. Ideal for even greater safety, loading weight and towing capacity.

(1) 4.4 T on a Fiat® chassis and 4.5 T on a Al-Ko® chassis.

OPTIONS MATCHING **YOUR NEEDS**

POWER

Choose the equipment to meet your needs:

Battery
AGM
A robust, reliable battery that is resistant to vibrations and shaking, as well as changes in temperature.
It offers excellent value for money and does not require any special maintenance. Optionally available in 95 Ah on low-profile models only.

Lithium batteries
For greater storage efficiency, power output and shorter charge times. Optionally available in 200 Ah on low-profile models and 200 or 300 Ah on A-class models.

High efficiency solar panels
These panels feature high efficiency cell technology that considerably improves their performance. Optionally available in 210 W on low-profile and A-class models.

HEATING

Truma® 4 or 6 depending on the model.
A compact air and water heater, runs on gas. Standard on low-profile models.

Truma® D 6E
Hybrid heater that runs on diesel (taken directly from vehicle fuel tank) and on electricity (230 V). Standard on A-class and optional on low-profile models.

Alde® D
Hybrid heating (runs on diesel and electricity). Optional on A-class and low-profile vehicles 7.40 m or longer, for maximum heating comfort. Heat exchanger and engine preheating pump included.

MULTIMEDIA

10" media pack
- Fiat® radio with 10" screen. Compatible with Apple CarPlay® and Android Auto®.
- DAB.
- GPS.
- Reversing camera.
- Cab and living area speakers.
- Automatic air-conditioning in cab.

10" media pack plus
- 10" media pack below.
- Induction charger.
- Digital dashboard.

SMART TV

TV with 4G/Wi-Fi antenna
Small antenna mounted on the roof. It gives you optimised access to Wi-Fi internet when you insert a SIM card in the internal case. Contact your internet provider for details and to select the best plan for you.

CAB COLOUR

White cab
Standard on low-profile and A-class vehicles together with a white grille. An optional black grille is available on low-profile models.

Black cab
Optional on low-profile vehicles only.
Combined with a black grille.

STYLE/INTERIOR DECOR

Pyla style

Annecy style

LOUNGE - BENCH SEATS

Clay
Imitation leather bench seats

Cottage
Two colour cloth bench seats

Sand
Fabric back and imitation leather seat
Example page 9

Zenith
Two colour cloth bench seats

Galet
Fabric back and imitation leather seat
Examples pages 19, 23, 29 ,33.

OPTIONS MATCHING **YOUR NEEDS**

BERTHS

Drop-down bed
Optional on many models (standard for some low-profile and all A-class models). Ideal for four people travelling together maintaining two separate sleeping areas.

Additional sleeping space in the lounge
This offers an extra birth.
Optional on all vehicles and standard on P720U.

Tailor-made fitted sheets
Fit the mattresses perfectly to save time and effort (for permanent berths only).

KITCHEN

Built-in waste bin waste bin with compartmenting accessories (standard on Al-Ko® chassis models)

Compression refrigerator (standard on A-class models)

Non-slip mats in drawers

Oven/grill powered by gas

Cooker hood with LED lighting

BATHROOM

Duckboard
In the shower. Optional on all models (standard on Al-Ko® chassis models)

Folding towel rack
Optional on all vehicles (standard on Al-Ko® chassis models).

STORAGE

Side skirt storage drawer A RARE OPTION
Provides plenty of handy extra storage space. Ideal for storing chocks, hoses and your dirty shoes... it keeps the storage area clean. Optional on all models (except on Al-Ko® chassis models).

Storage area fittings:
- **Stowage bars**
  (standard on Al-Ko® chassis models).
- **Hot/cold water shower head**
  (standard on Al-Ko® chassis models).

Electrically height adjustable storage area under the centre berth
Ideal for adding some extra space in the storage area while preserving vehicle insulation.

SLIMLINE LOW-PROFILE MODELS

- Light chassis derated to 3.55 T.
- All-season tyres - with snowflake.
- 95 Ah AGM battery and one 100 W monocrystalline high efficiency solar panel.
- 105 or 200 Ah lithium battery and one or two 100 W monocrystalline high efficiency solar panels.
- One or two additional 100 W monocrystalline high efficiency solar panels.
- Truma® Combi D 6E (6,000 W hot water/boiler) hybrid diesel/230 V heater.
- Electric drop-down bed with slat base in the lounge (except A650D: standard).
- Bike rack (2 slots).
- Additional sleeping capacity in the lounge (for one person).
- Gas oven/grill.
